

Existing law provides that sex offenders and child predators are required to provide certain notifications to local law enforcement and the community.

Existing law provides certain penalties for the failure to comply with sex offender registration and notification requirements.

New law adds notification on a networking website for any sex offender or child predator, who is otherwise not prohibited from accessing the networking website pursuant to existing law, who creates a profile or who uses the functionality of the networking website to contact other networking website users to the list of existing law notification requirements. Provides for the contents of new law notification.

New law defines "networking website".

Effective August 1, 2012.

(Adds R.S. 15:542.1(D))
